Hope investments in infrastructure fructify: FTCCI

Budget is balanced overall, say industry leaders

SPECIAL CORRESPONDENT
HYDERABAD

Federation of Telangana Chambers of Commerce and Industry has said that the Union Budget for 2020-21 is balanced overall with allocation for investment on infrastructure and incentivising manufacturing sector.

President of the FTCCI Karunendra S Jasti, speaking to media after the live streaming of Union Budget, here on Saturday said it was important in an economy on the downturn, to invest on infrastructure, job creation and wealth creation. However, one should wait and see how the allocations on investment would fructify. Government should focus on infrastructure rather than subsidies and concessions as in the long-term, only infrastructure development

Positive, but lacks big bang reforms:

TNN | Updated: Dec 14, 2019, 05:30 IST

Hyderabad: The thrust on agriculture, education and healthcare, had Telangana Chamber terming the Budget as positive, aspirational and balanced. The industry captains also lauded various initiatives of the FM to put more money in the hands of common people by lowering taxation rates to boost consumption in the economy. However, those hoping for bold moves to kick-start the economic engine were left high and dry.

FICCI president Sangita Reddy said: "Given the constraints, this has been a commendable statement. By invoking the deviation clause

Smart meters excite manufacturers in state

Radiant Appliances And Electronics managing director, Ramineer Singh Soin, said that government nudging states to replace conventional electricity meters with smart ones is set to open massive manufacturing opportunities for Telangana manufacturers. "There are around four to five players that account for nearly 20% of the smart meters manufactured in India. With this announcement, the manufacturing opportunity is set to increase," he said. Even the overall electronics manufacturing ecosystem is set to get a fillip in the state, he said.
