ABOUT THE EVENT

As part of the “**One Nation One Tax**” idea, the GST was implemented to increase tax system transparency. **This program examines the evolution of this idea following the implementation of GST in the year 2017.**

GST is a single tax system that many nations throughout the world have embraced. The subsumption of numerous indirect tax levies in the GST in India has helped firms become more globally competitive. This Conclave seeks to give participants a comprehensive grasp of the Indian Goods and Service Tax system in relation to other international tax systems, the present GST Law framework, and the encouragement given to Indian businesses, particularly MSMEs, to become globally competitive.
