# About FTCCI

Established in 1917, FTCCI serves as a vital liaison between Trade, Industry, and the Government, actively engaging in policy discussions and providing recommendations on matters related to industry, labour laws, energy, the environment, direct and indirect taxes, and other key issues. It also advocates for industries by highlighting challenges and concerns. FTCCI conducts research on various trade and industry related topics, functioning as a knowledge hub. FTCCI has over 3,000 direct members and 25000 indirect members through its 160 association members. FTCCI works across 18 expert committees.

## The ICT Committee & Featured Initiatives

**The Idea**

**Initiatives**

Empowering the traditional trade and industry with digital transformation by collaborating with startups, IT companies , Government and Academia

- Recommendation on policy formulation through round tables.
- Corporate-startup connect for co-innovation and co-creation.
- Support for digital transformation to FTCCI member companies.
- Engagement with Academia for enhancing employability skills

# GROWTH[X] 2026

## *What is GROWTH[X] 2026 ?*

Growth X 2026 is FTCCI's flagship designed to digitally empower India's traditional industries. By bringing together Startups, IT companies, corporates, government bodies, and academia, the program drives innovation, addresses industry challenges, and accelerates technology adoption across sectors.

Post the success of the 1<sup>st</sup> edition in Hyderabad, Telangana, FTCCI is poised to present the second edition in Feb 2026 which is being expanded into a national event. We aim to create a unified national platform for innovation, collaboration, policy advocacy, and sector-specific tech transformation where traditional sectors like manufacturing gain from demos and panels featuring real-world implementations by blending insightful keynotes, panel discussions, demos, and networking to drive practical adoption.

**NATIONAL VISION**

*To establish Telangana as a global leader in industry-technology integration, enabling MSMEs, traditional sectors, and emerging businesses to embrace digital tools, next-gen technologies, and innovative business models.*
