## Program on Water Security and Sustainability Approach for Industry

Date & Time : 16<sup>th</sup> June, 2023 | 10.00 am to 4.00 pm  
at FTCCI Surana Auditorium, FTCCI, Hyderabad

Register  
Here

With current practices, the world will face a 40% shortfall between forecast demand and available supply of water by 2030. Furthermore, Climate change will worsen the situation by altering hydrological cycles, making water more unpredictable and increasing the frequency and intensity of floods and droughts.

Water is one of the essential materials for the industry and water security has become an important factor for business sustainability. This program is intended to sensitize the industry managers on how they can plan for water management by adopting 3 R techniques, water efficient fixtures & rain water collection and reuse to reduce the surface or groundwater water footprint, nature-based treatment systems to recycle and reduce carbon footprint in the treatment system, and industry case studies of reuse of treated waste water and water auditing.

### Employee Pension (Amendment) Scheme

Recently the Employees' Provident Fund Organisation (EPFO) has allowed its subscribers to opt for a higher pension amount by increasing their contribution towards the Employees' Pension Scheme (EPS). The various Court Orders from time to time and the circulars of EPFO on eligibility criteria have created lot of confusion and uncertainty among members on their eligibility or otherwise and contribution to be made and its criteria.

### Aadhar Seeding under ESI Act, 1948

ESI Corporation vide notification has been allowed to perform Aadhar authentication on voluntary basis for identification of beneficiaries under the provisions of ESI Act, 1948. The employee gets various benefits by seeding of Aadhar in ESI data base/creation of ABHA (Aayushman Bharat Health Account) number.
