Press Release

Says **Prof. Dr. Nitin Kabra**, MD, DM., Chief Cardiologist, Gandhi Hospital

Online Session on "Treating Covid 19 and Managing Health

1st August 2020, Hyderabad:

Ramakanth Inani, President, FTCCI said "India's fight against the [Covid-19](#) outbreak has been unique and praiseworthy, however despite this the rising number of Covid patients is making people panicky and there is a need to ramp up measures to contain the virus and chalk out a roadmap. Indian pharmaceutical companies especially from Hyderabad are making concerted efforts in producing affordable low-cost medicines and vaccines to fight against this pandemic.

A study published in the reputed journal The Lancet has revealed. The study was based on 15 indicators covering socio-economic, demographic, housing and hygiene, epidemiological and health system. Given the rising cases of COVID infections in country more particularly in Telangana, there is a need for rigorous testing, increase in number of private healthcare providers to admit and treat COVID-19 positive cases, owing to the overloading of public health system. The crisis has made a deep impact on Indian businesses and the subsequent disruptions in all activities will have a long-lasting impact on all sectors.

I am happy to mention that FTCCI Members and Secretariat rose to the occasion to help the people in need and contributed Rs.42.3 lakh to the CMRF. FTCCI also distributed 1,36,240 energy drinks to the corona warriors.

Superheroes of COVID warriors are the healthcare workers on the frontline of managing the outbreak that has crippled healthcare systems around the world. It is praiseworthy that our healthcare workers are extremely doing well in this pandemic and we compliment each of one of them, for their extraordinary work.

About FTCCI

FTCCI have been energizing industry for 100 years. We've been engaging with the government to represent our members and played a key role in enabling change through meaningful interactions for an
