Dated: 12.04.2022

Read the following:

1. G.O.Ms.No.111 MA, Dated:08.03.1996
2. G.O.Rt.No.839, MA, Dated:07.12.2016

4. G.O.Rt.No.873, MA, Dated:20.12.2019
5. Report submitted by High Power Committee, Dt.31.03.2022.

### ORDER

In the reference 1<sup>st</sup> read above, orders were issued prohibiting polluting industries, major hotels, residential colonies and other establishments that generate pollution in the catchment area of Osman Sagar & Himayath Sagar reservoirs upto 10 Kms from FTL covering 84 villages with an area of nearly 1,32,000 Ac. This was done with an objective of protecting catchment area of these two reservoirs which were main source of drinking water to Hyderabad city at that time.

2. As per the details furnished by HMWS&SB, these two reservoirs are accounting for 27.59% of installed capacity of drinking water when the above said G.O. was issued. However, since the total installed capacity of drinking water for Hyderabad has grown up from 145 Mgd to 602 Mgd and additional 344 Mgd is also under execution, as a result drawals dependability of these reservoirs is less than 1.25% and they are no longer the source of drinking water supply to Hyderabad City.
3. Considering the above fact that Hyderabad city's drinking water requirements are no longer dependent on Osman Sagar & Himayatsager Reservoirs which was the underlying theme for issuance of G.O.111 Dt.08.03.1996, Government after careful examination of the matter have decided that the restrictions imposed under para 3 of said G.O. MS.No.111 Dt.8.3.1996 are removed, subject to condition that the water quality of these two reservoirs shall not be impacted any manner, whatsoever and all efforts will be initiated by the Government to improve the water quality of these two reservoirs, which inter-alia shall include
  - a) Installation of decentralized Sewerage Treatments Plants (STPs) at various locations
  - b) Construction of diversion channels for carrying the treated water without letting it into these two reservoirs.
  - c) Maintenance of Ground water quality
  - d) Minimisation of pollution through agricultural surface run-off into these two reservoirs.
  - e) Any other measures as deemed appropriate to ensure the quality of water
4. In order to frame guidelines and detailed regulations, a Committee headed by Chief Secretary and having Special Chief Secretary (MA&UD), Special Chief Secretary (Finance), Special Chief Secretary (I&CAD), Managing Director (HMW&SB), Member Secretary (TSPCB) & Director (Ping) HMDA is hereby constituted.
5. The Terms of Reference (ToR) of the Committee are as follows:
  - a) To suggest measures for protection and preventions of pollution to these two reservoirs
  - b) To suggest broad guidelines for zoning including earmarking of green zones
  - c) To suggest modalities for development of trunk infrastructure in this area
  - d) To suggest various means of resource mobilization for taking up trunk infrastructure i.e., Roads, Major Drains, STPs, Diversion Drains etc.,
  - e) To suggest appropriate institutional frame work to take up the infrastructure and regulate the development in this area.
  - f) To suggest necessary regulatory measures to be insisted while granting any layout / building permissions in this area
  - g) To suggest necessary changes if any to be made in the existing legal frame work to effectively regulate the developments in this area
  - h) While finalizing the guidelines / detailed regulations it must be ensured that not only proper Sewage Treatment Plants (STPs) are in place, the diversion drains to carry the treated water are also in place without letting the sewage water into above two reservoirs.
  - i) The Committee shall look into ways and means to raise resources to meet the infrastructure requirements in this area.
6. The Committee shall, keeping the broad primary objective of protecting the quality of two water bodies, shall work on the above mentioned ToR and submit it report to the Government at the earliest.
