2020(31)15 :/FoSCoS/RCD/FSSAIpt4 (E-1887)

Dated, the 18 March, 2026

ORDER

Subject: Compliance obligations of E-commerce FBOs in the context of Open Network for Digital Commerce model – reg.

As per FSS (Licensing and Registration of Food Business) amendment Regulations, 2021 (operationalised), E-commerce FBO means any Food Business Operator carrying out any of the activities in Section 3(n) of the Food Safety & Standards Act, 2006, through the medium of e-commerce. Furthermore, Ecommerce entities that provide a listing/directory of FBOs or food products and facilitate orders/transactions on their website shall require a central FSSAI license.

2. Open Network for Digital Commerce (ONDC), an initiative of the Department of Promotion of Industry and Internal Trade (DPIIT), recently came up with a decentralised and open network model. In this model, a single transaction involves multiple entities, such as buyer-side platforms (called Buyer Apps) and seller-side platforms (called Seller Apps). This is in contrast to the existing model of e-commerce, wherein all functions are managed by a single entity.
3. Based on representations from ONDC, FSSAI reviewed the extant regulations applicable to e-commerce FBOs, especially in respect of the open network model. Accordingly, the clear demarcation of liabilities and rationalised obligations divided between the entities involved in this model is at Annexure 1, which will come into effect from 1 April, 2026.
4. Further, to capture the information and traceability regarding the buyer app and seller app in FoSCoS, the existing E-commerce KoB has been revised accordingly.
5. This issues with the approval of the Competent Authority.
